The area also contains a motor pool and an athletic/parade field.

The barracks area was covered by [REDACTED] KEY-

HOLE missions of interpretable quality between [REDACTED]

[REDACTED] Comparative analysis indicates that the barracks area probably was constructed before [REDACTED]

[REDACTED] and was definitely constructed by [REDACTED]. Poor-quality photography precluded identification of the individual buildings on the earlier coverage. During the period observed, the amount of track activity has remained constant at the light to medium level.
